Private Road Street Sign Policy

Purpose. The purpose of the Private Road Street Sign Policy is to establish the role of the Town and property owners in providing street signs for private roads in the Town Right-Of-Way (ROW).

Owners of property on private roads are responsible for the cost of a sign for that road.

The Town of Panton will place or replace street signs in the ROW for new or existing private roads as follows:

1. At the expense of the property owner(s) of record on the street if the sign is damaged, removed, or deemed unusable by the Town road foreman.
 - a. Property owner(s) of record on the street shall receive an invoice for the sign in advance of the sign installation.
 - b. Property owner(s) of record on the street shall remit payment in full in one installment to the Town before the replacement is done.
 - c. The Town road crew shall install signs in the ROW on private roads at no additional expense to the property owner(s).

Further, the Town shall determine the size and character of any private road sign erected in a public right of way. The Town may remove any sign deemed out of compliance with standard street signage as specified by the Vermont Agency of Transportation.

Adopted at the June 27, 2022 Selectboard meeting.
